INTRODUCTION

Thanks to the main focus on clean room environment and technology, today TERMOVENT ENGINEERING is able to provide a complete solution to the clients including design,

installation works, own software and validation package, from idea to qualified system, all in accordance with GMP regulations / ISO 14644-1 standard, technologies and processes.

With great knowledge and experience, as well as high level of quality and reliability of HVAC (Heating, Ventilation, Air Conditioning), BMS (Building Management System) and EMS (Environmental Monitoring System) systems as well as qualification package in demanding GMP/ISO clean room classes, TERMOVENT ENGINEERING is a strategic and trustworthy supplier to companies that base their business in clean rooms zones.

ENGINEERING doesn't have an unsatisfied client today. Based on that trust, previous clients are returning, and we are gaining new ones.

TERMOVENT ENGINEERING Clients are Pharmaceutical companies, Healthcare institutions, Microelectronics industries, Battery production, but also Engineering companies.

With a great reference list, good ratio of prices and quality, with own sources as well as responsible specialists dedicated to quality and success of the project, TERMOVENT

Some of references for Engineering division are: Pfizer, Zoetis, Purna Pharmaceuticals etc.

ducting on the
extraction with
"0" leakage

PHARMASYNTEZ

Bratsk, Russia

PROJECT:

Production, delivery and installation of HVAC system's equipment for clean room environment

MISSION:

Clean room design, engineering, installation
Design, engineering, installation of complete HVAC systems
BMS / EMS system
HVAC, EMS, Clean room qualification / validation

Room class
ISO8

This project is based in Siberia, 7000 km from Termovent HQ

KATOD

Novosibirsk, Russia

PROJECT:

HVAC systems for clean room production of Night Vision Device

MISSION:

Clean room design, engineering, installation
Design, engineering, installation of HVAC systems
BMS system, HVAC, BMS commissioning

Room class
ISO5 / ISO6 / ISO7

The first ISO5 CleanRoom project for night vision equipment production

WELLPHARMA MEDICAL SOLUTIONS

Abu Dhabi, United Arab Emirates

PROJECT:

Delivery of the Control Boards, HVAC systems for The Intravenous Solutions (IV) production plant in Abu Dhabi

MISSION:

Engineering and installation of HVAC systems
BMS / EMS system, HVAC, BMS commissioning
EMS qualification / validation

Room class
C, D

UAE's first
production
of infusion
solution

DISHMAN LABORATORIES

Complete new hospital in Novokuznetsk

MISSION:
Clean room design, engineering, installation
HVAC system engineering and installation
BMS system, HVAC qualification
HVAC commissioning

Number of operating rooms:
10 operating rooms

First purpose of the building was shopping center

Termovent Komerc - recommendation letter

"Termovent Komerc company from Belgrade, Serbia was working for Bilthoven Biologicals B.V. company in period 2012/2015 in next projects:

- 2012 / 2013 HVAC installation for **U3** building
For this project Termovent was responsible for delivery and installation of Air Handling Units, produced by them, sensors and air ducts with all accessories for distribution and regulation. Termovent's engineers gave us full assistance during commissioning and start up this project.
- 2015 - HVAC installation for **G7** building
For this project Termovent did main design of HVAC installation, delivery and installation of HVAC equipment, produced by them, ducting, piping with all accessories, balancing air and water side, commissioning, IQ/OQ, measuring, and start up.
- 2015 - HVAC installation for **A7** building - BSL3 area.
For this project Termovent is responsible for all activities regarding general design reviewing, delivery and installation of HVAC equipment, which is made by them, installation of ducting with elements for air distribution and regulation, electrical cabinets for power and automation, cabling, signal checking, software for BMS, balancing air and water side, commissioning, IQ/OQ, measuring, and start up.
Contract value is more than 2.300.000,00 euro.

In these projects Termovent Komerc has done all tasks: designing, FAT in their factory, installation, commissioning, IQ/OQ, and start up, in time, without remarks and in a really excellent quality.

We are very satisfied with Termovent's work and organization.
This company has our full recommendation."

Louvain-la-Neuve, 10 février 2014

Termovent Komerc - recommendation letter

"Termovent-komerc company from Belgrade, Serbia was working for purpose of Zoetis company in period 2012/2013 (starting in 2007) in next projects:

- P2179, Filling syringes line -(2012),
- P2100, Revamping HVAC for Lyo rooms -(2013),
- P2100 Revamping HVAC for Bloc 200 -(2013),
- P2186 Isolator room -(2013-2014).

In these project Termovent-komerc was responsible for all activities regarding general design, delivery and installation of HVAC equipment, which is made by them, installation of ducting with elements for air distribution and regulation, delivery and installation of electrical cabinets for power and automation, cabling with signal checking, commissioning and start up.

Special organization skills Termovent-komerc company showed in project P2100 - revamping bloc 200 \$6 weeks shutdown for 2/3 of our production area), contract value approximately 1.460.000,00 euro. In this project Termovent-komerc has done all tasks: designing, dismantling, FAT in their factory, installation and finally commissioning and start up of all systems in a really short time, and in a really excellent quality.

Our company is satisfied with work and organization of Termovent-komerc company. This company is finishing its projects in time and quality, and without remarks, which is confirmed with our contract in period of 5 (five) years.

This company has our full recommendation."

QUALITY MANAGEMENT SYSTEM

CERTIFICATES AS THE GUARANTEE OF QUALITY

As Tervovent is fully committed to meet the clients' requirements in terms of quality, environmental protection and safety, we set high quality standards which represent the cornerstone of our operations. For achieving set goals, our employees continuously participate in the process of improvement and optimization of the products and services. Success of this approach is confirmed by numerous certificates held by Tervovent, which guarantee the highest standards to our customers.

Eurovent Certita Certification

Eurovent Certita Certification has certified that Tervovent Air Handling Units, Range KK, and Software for calculation of performances SELECT:pro, Trade name TERMOVENT, have been assessed according to requirements of the following standard: OM-5-2017

CE marking for Tervovent AHUs

Tervovent Air handling Units hold CE Marking of Conformity to Machinery Directive 2006/42/EC Annex II, Point A. In addition, Tervovent AHUs are designed and produced according to set of harmonized standards: EN ISO 12100:2010, EN ISO 12100:2010, EN ISO 13850:2015, EN 1037:1995+ A1:2008, EN ISO 14120:2015, EN 60204-1:2006/A1:2009 and EN 61000-6-2:2005/AC:2005

ISO 13485:2016

Certification body SIQ confirmed that Tervovent introduced Quality Management System in accordance with ISO 13485:2016 in the field of manufacturing, design and installation of Tervovent panels for the construction of clean rooms.

ISO 9001: 2015

Certification body TUV SUD Management Service GmbH confirmed that Tervovent introduced Quality Management System in accordance with ISO 9001:2015 standard in the field of manufacturing, installation and sales of equipment for air conditioning, heating and cooling.

ISO 14001:2015

Certification body TUV SUD Management Service GmbH confirmed that Tervovent introduced Environmental Management System in accordance with ISO 14001:2015 in the field of manufacturing, installation and automation of air conditioning, heating and cooling system.

OHSAS 18001:2007

Certification body TUV SUD Management Service GmbH confirmed that Tervovent introduced Health and Safety Management System in accordance with OHSAS 18001:2007 in the field of manufacturing, installation and automation of air conditioning, heating and cooling equipment and systems.
